

PRODUCT OVERVIEW:

Cellular Reset is a proprietary tri-peptide bioregulator formula that helps to **restore mitochondrial function, revives metabolic efficiency, and enhances cellular energy** output at its core.*

Metabolism isn't just about calories in, calories out, it's dictated by the health of your cells and mitochondria, the energy-producing engines of the body. When mitochondria are sluggish, ATP production drops, leading to fatigue, metabolic slowdown, and reduced endurance. Cellular Reset works by helping to **repair mitochondrial pathways, supporting proper fat oxidation, and optimizing ATP generation to restore metabolic function** at the cellular level.*

This formula combines three advanced peptides—**5-Amino-1-MQ, BPC-157, and SLU-PP-332**—that work **synergistically to promote NAD + production, aid in mitochondrial repair, and support metabolic activation**.* Rather than just managing symptoms, Cellular Reset helps to **reboot energy systems, enhances endurance, and helps the body function as efficiently as it was designed to**.*

CELLULAR RESET KEY BENEFITS:

Cellular Repair & Regeneration - helps to accelerate tissue healing and helps promote mitochondrial repair for optimal recovery and cellular function.*

Metabolic Reset & Optimization - helps to enhance fat oxidation, support energy production, and ATP efficiency by supporting NAD+ levels and mitochondrial activation.*

Enhanced Gut Health - supports gut lining integrity and microbiome balance, which are critical for nutrient absorption and metabolic efficiency.*

Mitochondrial Enhancement - supports mitochondrial function and ATP production, helps to improve energy output, metabolic resilience, and overall cellular function.*

Longevity Support - helps to activate anti-aging pathways, supports collagen production and tissue repair, and helps maintain healthy cellular function, potentially supporting longer and healthier lives.*

WHAT ARE PEPTIDES?

Imagine **unlocking the secret to youthful vitality** by improving your body's natural communication system.* As we age, our cells begin to lose their vibrational energy, leading to sluggish performance, visible signs of aging, and diminished overall health. **Peptide bioregulators are the game-changer your body has been waiting for.**

These **revolutionary molecules** act as **messengers within the body**, restoring the signaling capacity of your cells and helping them function like they did in their prime*. By addressing the **root cause of cellular dysfunction**, peptide bioregulators **recharge your body from within**, promoting enhanced energy, faster recovery, and a renewed sense of wellness.*

Peptides are the **future of health**—providing powerful, targeted support for optimal living while **making your current wellness supplements have an even greater impact on your health.***

WHO SHOULD TAKE CELLULAR RESET:

- **Individuals over 30** – As we age, metabolism slows, ATP production declines, and mitochondrial function weakens. Cellular Reset helps restore metabolic efficiency, sustain energy levels, and optimize fat metabolism.*

- **For Those Who Want to Burn Fat Without Sacrificing Muscle** – Optimizes fat oxidation and energy production by activating key cellular regulators that help the body burn fat for fuel, preserve lean muscle, and sustain long-term metabolic efficiency.*

Active Lifestyles & Athletes – Supports muscle recovery and maintenance while enhancing endurance, VO2 max, and metabolic efficiency.* By optimizing mitochondrial function and fat oxidation, it helps sustain energy output and performance over time.*

- **Those Managing Inflammation & Fatigue** – Supports tissue repair and cellular resilience, helping to combat systemic inflammation, oxidative stress, and chronic fatigue.*
- **Anyone participating in the 45Easy.com Transformation Challenge** – Combining **Cellular Reset, Master Microbiotics, and Detox Pro Plus** while following **Dr. Eric Nepute's 45-day transformation program** offers a powerful approach to healthy aging and weight management, by protecting mitochondria, activating longevity pathways, and supporting long-term metabolic function.*

KEY INGREDIENTS:

5-Amino-1-MQ (The Metabolic Reset Peptide) - a powerful metabolic activator that helps restore mitochondrial efficiency, regulate fat metabolism, and preserve lean muscle.* It works by inhibiting the NNMT enzyme, a key factor in slowing metabolism with age.

- **Supports fat breakdown and muscle preservation.***
- **Helps reduce systemic inflammation, improving overall cellular health.***
- **Enhances mitochondrial energy production for sustained metabolic efficiency.***

BPC-157 (The Repair Peptide) - a regenerative peptide that promotes tissue healing, gut integrity, and inflammation control.* It aids in collagen synthesis, angiogenesis, and mitochondrial membrane protection.*

- **Stimulates tissue regeneration and collagen production.***
- **Supports gut health by strengthening the intestinal barrier.***
- **Reduces oxidative stress, promoting sustained energy and cellular function.***

SLU-PP-332 (The 'Exercise in a Bottle' Peptide) - a metabolic bioregulator that can enhance mitochondrial function, support proper fat metabolism, and endurance.* It has shown to mimic the effects of endurance exercise at the cellular level, improving VO2 max and skeletal muscle strength.*

- **Helps boost mitochondrial function and energy production.***
- **Supports proper fat oxidation while helping preserving muscle mass.***
- **Reduces oxidative stress and supports anti-aging pathways.***

This bioregulator stack supports optimal health by promoting energy production, fat metabolism, cellular repair, and enhanced mitochondrial function, offering a comprehensive systemic reset.*

WHAT MAKES CELLULAR RESET UNIQUE?

Cellular Reset is not like typical metabolic or performance supplements—it's a peptide-based bioregulator formula **designed to work at the cellular level**. By combining 5-Amino-1-MQ (The Metabolic Reset Peptide), BPC-157 (The Repair Peptide), and SLU-PP-332 (The 'Exercise in a Bottle' Peptide), this formula delivers a unique synergy that **targets mitochondrial function, cellular repair, and metabolic optimization.** *

Unlike standard metabolism boosters that rely on stimulants or temporary fixes, Cellular Reset works by **restoring efficiency within the body's own biochemical pathways.*** These peptides collaborate to support **mitochondrial energy production, enhance fat metabolism, accelerate tissue recovery, and improve endurance**—helping your body reset, recharge, and operate at its **full biological potential.** *

CLINICAL SCIENCE BEHIND CELLULAR RESET:

The research-backed tri-peptide stack in Cellular Reset is **supported by extensive independent research and clinical science**, demonstrating its role in mitochondrial function, fat metabolism, and cellular energy production.

5-Amino-1MQ (The Metabolic Reset Peptide) is a potent NNMT enzyme inhibitor. Studies suggest that NNMT inhibition may contribute to increased NAD+ levels, potentially activating SIRT1 longevity genes—key regulators of **metabolic efficiency, DNA repair, and inflammation reduction**.

BPC-157 (aka The Repair Peptide) has been extensively studied for its ability to **enhance tissue regeneration, support gut integrity, and protect mitochondrial membranes**.

SLU-PP-332 (The "Exercise in a Bottle" Peptide) has been researched for its potential effects to **boost mitochondrial biogenesis, optimize fat oxidation, protect telomeres, and reduce oxidative stress, supporting longevity**.

This synergistic combination of these three peptides may work to **restore normal levels of metabolic function at the cellular level**, supporting long-term vitality and resilience.*

FREQUENTLY ASKED QUESTIONS:

What makes Cellular Reset different?

Cellular Reset is not just a traditional supplement—it's a comprehensive bioregulator peptide stack that combines three scientifically engineered components to optimize your metabolism, support mitochondrial health, repair cells, and promote longevity.* The synergy between 5-Amino-1-MQ, BPC-157, and SLU-PP-332 offers a unique formula that targets multiple cellular pathways for optimal health.

How long will it take to notice results with Cellular Reset?

Results can vary depending on individual health factors, but many users report noticeable improvements in energy levels, recovery, and overall wellness within the first 30 days of use.

Can I take Cellular Reset with other BioLimitless products?

Yes! Cellular Reset works synergistically with other BioLimitless bioregulators like Cell Signals and Master

Microbiotics, and it can be easily integrated into your wellness routine for maximum benefits.

How does Cellular Reset support gut health?

The BPC-157 peptide in Cellular Reset supports gut lining integrity and reduces inflammation, fostering a healthy gut microbiome and aiding in digestion.* It also works to improve nutrient absorption, which further contributes to overall wellness.*

Is Cellular Reset safe to take long-term?

Yes, Cellular Reset is formulated for long-term use and has been designed to support your body's natural processes. However, as with any wellness regimen, it's best to consult with a healthcare professional before starting, especially if you have any pre-existing conditions.

FREQUENTLY ASKED QUESTIONS (CONTINUED):

Where do our peptides come from?

Our research-quality peptides are sequentially synthesized using naturally occurring amino acids, creating specific peptide bioregulators with 99% purity and maximum strength. Unlike plant-based peptides, which are derived from external sources and lack the precise bio-regulating capabilities your body needs, these lab-engineered peptides are specifically designed to mimic the body's natural cellular signaling molecules.

This precision ensures they deliver consistent and targeted support, helping to optimize cellular function and restore balance.*

Clinically proven to stimulate cellular activity, our peptides go beyond what plant-based alternatives can offer, providing unparalleled support for energy, recovery, and overall health.*
